

We are Enluma

We give you the very best quality of lighting and electrical contracting with optimum efficiency, where you need it and when you need it.

Our expertise encompasses the latest design and technology

We maximize customer satisfaction by taking a collaborative approach. We work closely with you to assess your particular lighting needs and provide you with the best solutions.

Commercial Lighting

The result: High quality endproducts developed quickly and accurately at the lowest costs. Compliance management is assured. And visibility is enhanced so that risk is minimized and operating targets are achieved.

Residential Lighting

Our work in homes is tailored to your tastes and needs. It is your home, and, we will help you realize all that you wish.

We have a deep appreciation for the art and wisdom of retro lighting designs

Enluma's had the privilege of working in historic homes and on landmarks of the Bay Area. We have a wealth of experience refurbishing and installing wonderfully crafted fixtures by preserving the genius of previous generations of lighting.

Light comes from a myriad of sources, none of which should be wasted or constrained

Solar gain, reflectivity and simple focus all can yield tremendous results, providing huge increases in efficiency. This is what we do.

It's simple. By using renewable sources of energy, efficient lighting saves you money while protecting the environment. Enluma has always practiced energy efficient methods, long before "green solutions" was an expression. We will bring this philosophy to your job.

Let's explore how we can add value to your projects.

Please feel free to contact us via our web site at www.enluma.net or just call us directly at 510.893.0134
